Application No.: 09/751,761

Amendment and RCE dated: September 15, 2005 Reply to Office Action dated: June 17, 2005

REMARKS/ARGUMENTS

Claims 1-2, 4-8, 10-15, and 17-19 were pending in the application. Claims 1-19 have been cancelled. Claims 20-38 have been added previously added, but not admitted. These amendments are presented again for the Examiner's reference.

Claim Rejections Under 35 U.S.C. §103(a)

Claims 1, 5-7, 10-11, 14, and 18-19 were rejected under 35 U.S.C. §103(a) as being unpatentable over Swoboda in view of Mandyam. Swoboda generally discloses emulation and debug circuitry that can be incorporated into a variety of digital systems (*See* Abstract). Mandyam discloses detecting architectural violations in a multiprocessor computer system using a random test generator (*See* Abstract). Neither Swoboda, nor Mandyam, nor any combination thereof discloses detecting a stall in said execution stage, as recited by claims 20, 26, and 33. Applicants respectfully submit, therefore, that elements of claim 20, 26, and 33 are neither shown nor suggested by the cited reference. Claims 21-25, 27-32, and 34-38 depend from claims 20,26, and 33, respectively.

Claims 2, 8, and 15 were rejected under 35 U.S.C. §103(a) as being unpatentable over Swoboda in view of Mandyam in further view of Sato. Sato discloses a pipelined microprocessor capable of avoiding pipeline stalls (*See* Abstract). One of the disclosed methods is by inserting a NOP operation into the pipeline (*See* Sato, Col. 2, Lines 4-14). Neither Swoboda, Sato, Mandyam nor any combination thereof discloses detecting a stall in said execution stage, as recited by claims 20, 26, and 33.

Application No.: 09/751,761

Amendment and RCE dated: September 15, 2005 Reply to Office Action dated: June 17, 2005

Claims 12-13 were rejected under 35 U.S.C. §103(a) as being unpatentable over Swoboda in view of Mandyam in further view of Hennessy. Hennessy is a computer textbook that discloses AND and OR operations. Neither Swoboda, Mandyam, Hennessy, nor any combination thereof discloses detecting a stall in said execution stage, as recited by claims 20, 26, and 33.

Applicants respectfully submit, therefore, that elements of claim 20, 26, and 33 are neither shown nor suggested by the cited references. Claims 21-25, 27-32, and 34-38 depend from claims 20,26, and 33, respectively. Accordingly claims 20-38 are allowable over the art cited under 35 U.S.C. §103(a).

For all the above reasons, the Applicant respectfully submits that this application is in condition for allowance. A Notice of Allowance is earnestly solicited.

The Commissioner is hereby authorized to charge any additional fees or credit any overpayments under 37 C.F.R. §1.16 or §1.17 to Deposit Account No. 11-0600.
